HOW IT WORKS

- Share a story or two about your pet. What does he/she like, quirks, favorite activities, etc.
- Choose your favorite photo(s). The more the better of your beloved pet. I love working from crisp, high resolution files (300 dpi). A close head shot - portrait or vertical orientation works best. If you have full body photos of your pet I can get to know him/her that way too. If you feel strongly about a specific image, please let me know! For me, I love the images where they are looking right at us.
- Send images to sylvina@sylvinarollinsart.com for review.
